Address:	TWH	Birthdate:	1986-12-29 (y/m/d)
		Sex:	M
		Health Card No.:	(ON) 2008978005 BY
		Appointment date:	
		Time:	
		Chart No.:	

## Reason for consultation:

Thank you for seeing this pleasant 37 year old male for presumed left trigger finger and tenosynovitis x 8 months with failure of conservative strategies. No significant improvement with 2 cortisone injections and is having trouble with gripping, which affects his job as a personal trainer. I would appreciate your further assessment and management. Many thanks.

## Pertinent Clinical Information:

See attached consult note and imaging attached

## Significant Concurrent Problems:

None significant

## Current Medications:

Has tried Alleve

## Allergies:

NKDA
